Cher Partners, I praise God for each of you and pray that you all enjoy a very relaxing summer. If you want to escape the heat, come to Benin. Yes, that's right, July and August are the coolest months here, so come enjoy.

Parents accepting Christ

Salvation By Grace

The number five signifies grace and that's what God did here in June, five souls came to the Lord for which I rejoice. Four parents accepted the Lord after a Parent's meeting, and after sharing the gospel during a lesson with my Fon language teacher, she gave her heart to the Lord. Glory!!! Please pray with me for their continual growth in the Lord.

Some of you were aware that two teachers abandoned their posts at the end of January. This was very difficult as Madame Yaka (directress) held the 3rd and 4th grade classes together until God provided two replacements in

March. The two teachers who left were French speaking High School grads. The two teachers who have replaced them are French and English speaking college grads. Talk about God closing a window and opening a door! Welcome Fangnon Dieuodonne and Rose Okorie.

The school license is on its way. Our dossier was accepted and we are just waiting for a final inspection. We hope to have it by September, praise God. The legalization of land papers for the

school in the village is also making some progress. We were able to present our case before the Mayor of Ze, the commune in which Agondoton resides and he was very positive about helping to resolve the problem. I continue to wait, not on him (the mayor), but on God.

EXCEPT YOU COME AS A CHILD

Our Children both in Haiti and Benin know how to love and give. First of all, prior to the earthquake, the children in Haiti have a bank where they deposit their little "gourds" (Haitian currency) to send to the village children in Benin. Their last collection, the equivalent of \$15 U.S was brought to Benin to bless the children. On Benin's part, when the children in the 2nd grade class heard of the earthquake in Haiti and what the children did for them, they immediately bowed their heads and began to pray for the children in Haiti. They also said they were going to begin collecting for them now. It was a moment to remember.

The Haitian Harvest

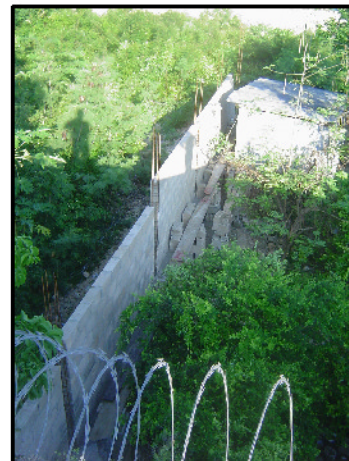

I thank God for continuing to provide for the needs in Haiti following the earthquake through organizations and individuals like you. The foundation and wall of the right side of the building has been repaired, and *Life Center Ministries, Harrisburg Pa.* sent a construction team in May to rebuild the remaining two walls that had collapsed around the compound. I also wish to thank the following churches along with Life Center for contributing financially to repair the compound and to meet the needs of our Haitian community for tents, medication, and much more.
