Hello Precious Partners,

I recently left Haiti and will more likely be back in Benin when you receive this newsletter. I really appreciate how many of you reached out to Haiti with either funds or supplies to minister and meet needs that existed. Thanks so much for rallying behind us.

God sent 3 (left) people to accompany me into Haiti, a team of seven to come work with me while there, and another team of three (3 right), Brenda Feaster, Praise, Power, and Deliverance Church, Philadelphia., Debra Ransmeier, Abundant Life Community Church, MD., and Luis Rodriguez, Deliverance Evang. Church, Phila. again to be with me to wrap up my time there and to hold down the fort as I leave. 3-7-3, a Coincidence??? I think not, my faithful God is to be praised.

On February 23rd, a small team of 3 persons (Gideon's Army) accompanied to Haiti. We flew into the Dominican Republic and drove about 8 hours by road to enter Haiti.

A construction engineer (Joe Marchese) was among the team and was able to access the damages to the CCWM compound and some other missions and sites. At present we have estimated over \$12,000 worth of damage to the buildings. With what many of you have already provided, I have been able to begin repairs to the exterior walls and some structural and foundational damages.

I praise God for that and I'm believing Him to provide all that will eventually be needed to repair all damages!

A team of seven (7) from Holy Temple Deliverance Church, under Pastor Dominique Joachim, came and held two clinics, one on the compound and the other was a mobile clinic in a Tent City. Another glorious day of seeing God minister into the hearts of these precious people. Fourteen (14) souls came to the Lord, one of which was a Sri Lankan U.N. Soldier. God is Soooo Good.

Thanks to Deliverance Evang. Church of Philadelphia which sent 24 barrels of food, water and clothing, the team was able to do outreach by going to two Refugee/Tent camps to deliver care packages and to minister Christ. It was a glorious day! Many new converts accompanied us on the outreach and experienced the joy of sharing Christ with others for the first time.

Dr. Ava Joubert (above) came and held a three day clinic to meet various medical needs.

Ministering to people locally at the CCWM compound and in the "Tent Cities".

The Benin Review

The Church in the village of Agondoton has a roof and walls. Now we can begin to fill His house with praise and worship!

Thanks Sooooo much for standing with me in the kingdom work here in Haiti W.I., Benin, and around the world.

Things are going on well on the Benin front. Madame Yaka (Direct rice) is a truly faithful woman of God who is sacrificially serving God without reservation. We recently had two teachers quit, while I was in Haiti, and Madame Yaka, besides her supervisory duties, is holding down the fort by teaching a combined class until she replaces them.

My roommate Patricia Lindsay with the Church of Christ Holiness Mission Board has had a change of duties and has left Benin. She will be serving Stateside for an indefinite period of time. I will miss her much, and wish her the best as she moves forward with God. Hey!, anyone else interested in coming to be my roommate?

In His Service,
Brenda
